

# MULTI F

---

1. Increase in lathe productivity
2. Reduced loading time
3. Channel guide in material resistant to wearing
4. Guides lubrication
5. Quick channel change system
6. Special channel segments for polygonal bars
7. Sliding upper frame for easy access to the feed finger operation area
8. Fast and precise bar insertion by means of an electric motor
9. Removal of the complete lathe stock reel.
10. Extremely compact design
11. Option to reduce vibrations
  - a. Forks centering device

## TECHNICAL DATA

<b>Specifications</b>	
Bar diameters	Depending on lathe model (Standard min Ø5mm max Ø80mm) Special Ø on demand
<b>Bar Length</b>	<b>3200mm - 4000mm</b>
Bar Rack capacity	Standard 300 – 1000mm Bundle capacity 1,2 to (Special capacity on demand)
<b>Bar feeding</b>	<b>By the automatic lathe</b>
Bar change time	Depending on bar length (3,3m/4m)
